

Apex University of Technology
Internal Audit Department: Closeout Memo
Reference Audit: AUD-01 (Employee Offboarding Controls)

Date: June 2026

To: Executive Management Board, Apex University
From: Internal Audit Team

The Internal Audit of the Employee Offboarding Controls (mapping to ISO 27001 Controls A.5.11 and A.6.5) is now officially closed.

University management has reviewed and accepted the audit findings regarding the 3-day HR delay. To resolve this security gap, they have scheduled a plan to build an automated ticketing workflow between HR and IT.

The Internal Audit team will conduct a follow-up review in 90 days. This check will confirm that the new automated system is active and that staff accounts are locked immediately when an employee leaves.
